**These items may need to be replaced throughout the school year*

Please do not allow your child to bring any type of large binder (Trapper Keeper) to use as their notebook. They are too large to fit inside of the desks, and are very distracting for the students to work with.

Also, please start studying multiplication tables with your child over the summer. It will make learning these facts much easier throughout the course of the school year. Your child should also be reading for 20-30 minutes daily to practice fluency and comprehension over the summer. These are all important skills needed for a successful third grade year.

Thank you for your cooperation, and have a great summer!
